A single microbe contains the germ of the most malignant maladies. The blood is the means by which microbes are sent on their deadly mission. Small at first, the microbe soon becomes a giant. Hood's Sarsaparilla is the arch enemy of all germs of whatever nature. Its small doses master these microbes by dissolving and passing them off as refuse of the system.

MEETING OF THE CITY COUNCIL.

The Election of a Marshal a Hard Nut to Crack—No Choice Made.

The city council held an interesting session last Monday evening, with the mayor and all of the aldermen present.

Considerable time was taken up in auditing bills and examining the monthly reports of the several city officers.

The matter of granting a franchise to the Rocky Mountain Bell Telephone Co. was discussed; no action was taken, however, and the judiciary committee was given further time to investigate and report at some future meeting of the council.

The council then went into committee of the whole for the purpose of electing a city marshal. After a number of unsuccessful ballots the committee rose and reported its inability to arrive at a choice. The council stood equally divided, and in order to bring the matter properly before the council, and to finally dispose of it, Ald. Moore moved that the appointment of Mr. Abbey as marshal (made some time last fall) be confirmed. The motion was seconded by Ald. Wipf and the vote resulted in a tie—Aldermen Fairbairn, McDonald and Wipf voting aye and Aldermen Dearborn, Moore and Opp voting no. Mayor Boyd declined to cast the deciding vote and there is no marshal elected as yet. The matter will be taken up again next meeting and it is believed that both contesting candidates (Abbey and Chandler) will be dropped and a third man named for the position.

W. H. Stewart and family of Parkerville left this morning for Houlton, Maine, Mr. Stewart having received word of the serious illness of his aged mother, who is not expected to live. Mrs. Stewart and children will visit her home at Florenceville N. B., before returning.
